Message from the Director Mrs. Shabana Syed

EID UL FITR MUBARAK TO ALL!

"May each and every day of your life is blessed by Allah swt. May you walk new paths of success and prosperity with his blessings. Eid Mubarak."

Preschool was busy with a lot of activities planned for the month of Ramadan. Teaching children at a very young age about giving charity is very important. As they grow they will be in the habit of sharing and giving things to those who are less fortunate than them. Hygiene kits were donated by parents and children distributed to the homeless people. Another great activity we did was that we partnered with ICSGV/ICNA pantry and collected Canned Food items.

The children had a chance to stack up the items to be distributed to the needy. We also got to take home the Sadaqa Jar which they decorated and insha Allah when they bring back after Eid I will update the raised funds in our next newsletter. This money will be distributed to the needy children in our community.

The most excited and fun thing is that we're able to have Iftaar together at the masjid. This was a special gathering for our preschool families. And finally we celebrated with a special Eid Party.

May brings us to the end of another great year. I want to thank all of you for your support. Your help with chaperoning to field trips, providing school supplies for our class, contributing towards iftaar dinner, contributing to our community, and sharing your special talents with our classes to enrich our program. I truly appreciate you all!

Congratulations to Ayub Mansury, Hadeel Gaber, and Haamid Rahmani for spending their precious years with me and for moving on to Kindergarten next year. I wish them continued success as your children pass into new schools and I look forward to our old families returning to the Preschool in June. Have a great summer!

MAY 27TH

END OF THE YEAR CELEBRATIONS

AT HOME ACTIVITIES

Learning At Home Activities: Shadow Play

Turn off the lights in a room of your house. Shine a flashlight on the wall and hold your hand up to the light to create different shapes and animals. Encourage your child to make shapes and animals of their own! Let them explore the shapes their hands make on the wall. Encourage them to put on a "shadow show" and make up a story.

Estimated time: 30 minutes

Materials:

A flashlight and a wall

Subject: Imagination and science

QUESADILLAS

- 2 tortillas
- 1/4 Cup cheese
- Olives or Salsa, optional

Sprinkle cheese on top of tortilla. Add olives or salsa if desired. Place other tortilla on top and bake in microwave for 30 seconds until cheese melts. For a crispy quesadilla, have adult bake in the oven.
